Year group 2

Term 3: Land of the Dragons: China

English

Our English work will be based on The Egg by M.P. Robertson along with other dragon related texts. We will be learning how to write a non-chronological report all about a dragon we create. We will then be writing a narrative based on an adventure we have with a dragon.

Design and Technology

Linked to our topic on dragons, we shall be creating moving monsters. We will look at various designs and how they move.

Art

Our art work will link to our dragons focus. We will be sketching dragons, looking at details. We will then focus on dragon eyes by designing detailed eyes and then creating 3D models using clay.

Maths

We start the term by studying shapes. We will look at recognising and naming the properties of 2D and 3D shapes. We will also learn about patterns and symmetry. We will then begin learning about money followed by multiplication.

Our class text:

Geography

In geography we will be finding out about China. We will learn about the physical and human features and be able to mark these on a map. We will compare the similarities and differences between living in China with living in the UK.

Key Driver: resilience

Science

In science, we will be learning why it is important for humans to exercise. We will learn why it is important to eat the right amounts of different types of food. We will investigate why it is important to be hygienic by finding out what will clean our hands the best.

PSHE: Dreams and Goals. We will learn how to become resilient and how to work as a team to achieve our goals.

Computing: Programming- Robot Algorithms: We will learn how to give instructions that can be followed by a Beebot and how to debug.

PE: Dance and Sending and Receiving

RE: How do we know some people have a special connection to god?

Music: 'I wanna play in a band'
