

## LANGTOFT PRIMARY SCHOOL FRIDAY BULLETIN

20 May 2022

Article 31 (leisure, play and culture): Every child has the right to relax, play and take part in a wide range of cultural and artistic activities.

### QUEEN'S PLATINUM JUBILEE CELEBRATION

We shall be celebrating the Queen's Platinum Jubilee on **Thursday 26<sup>th</sup> May**. Children will be completing work in school about the Platinum Jubilee in the run up to the event including learning about the Queen's reign and the Commonwealth, learning the national anthem plus a song from the previous 7 decades to perform on the day.

FOLS have very kindly purchased a commemorative plate for each child in school, which they will be decorating and bringing home as a memento of the celebration.

On the actual day, children are able to come to school dressed in red, white and blue. They will be playing games, making decorations and after lunch, there will be a 'whole school' party picnic on the field. Children will be asked to bring in a small plate of food to eat at the picnic (no nuts please). Unfortunately, we are unable to accommodate parents at this event.

EYFS, Year 2 and Year 3 will have their PE lesson in the morning so they will need to bring/wear trainers. Pupils who are at the bowling event can bring their red, white and blue clothes to change in to when they return.

There will also be a 'Jubilee crown' competition (to be completed at home) – children can start thinking about their ideas for a crown which can be worn to school on the day. There will be a prize for the best crown in each class.

### SHAKE SHACK!

FOLS have got an exciting treat for the end of term – a pop up Shake Shack!

You are able to pre-order a delicious milkshake made with milk, ice-cream and chocolate which comes in 3 different flavours with squirty cream and a choice of chocolate toppings, all for £2 when pre-ordered or £2.50 on the day. They can even cater for Playzone and for those children attending the after-school football club.

**Shake Shack will be available on Friday 27 May outside the Y3 doors near the carpark.**

Place your order at [www.pta-events.co.uk/friendsoflangtoft](http://www.pta-events.co.uk/friendsoflangtoft) Pre-orders close at 7pm on 25.05.22.

### RACE FOR LIFE FUNDRAISER

14 members of staff are taking part in the Race for Life Pretty Muddy event on Sunday 12 June to raise money for Cancer Research UK. With so many of us affected by cancer, either having had it ourselves or have loved ones who have suffered, we are determined to raise as much money as possible for this worthy cause.

Our aim is to raise £1000 and we would be very grateful for any donations, no matter how small.

Our Just Giving page can be found here: <https://fundraise.cancerresearchuk.org/team/langtoft-ladies>

## SUMMER TERM CLUBS

We continue to offer a choice of clubs for the final term. You are able to sign your child up to Y5 tennis, before school football, Y1 golf or KS2 Boxercise (the other clubs listed are continuing from this term). All clubs will run to the last week of the summer term with the exception of rounders and Kick-Off Soccer which finish the week before.

Monday	Tuesday	Wednesday	Thursday	Friday
<b>Tennis Y5 with Simon</b> (3:15-4:15pm)  <b>*NEW*</b> <b>External Boxercise</b> (3:15 – 4:15pm)	<b>C4L Club Y3/Y4</b> (Lunchtime)  <b>Cricket Y5/6 with Mrs Oakley</b> (3:15-4:15pm)	<b>External ICanDance Y1-Y6</b> (3:15 – 4:15pm)	<b>Football with Tom</b> (8:00 - 8:45am)  <b>Choir with Polly</b> (lunchtime)  <b>Wellbeing Club with Mrs Wood and Mrs Pennell</b> (lunchtime)  <b>Golf Y1 with Darren</b> (lunchtime)  <b>Rounders Y5/Y6 with Mrs Graves and Mrs Hudson</b> (3:15pm-4:15pm)	<b>External Kick-Off Soccer with Adam</b> (3:20 – 4:20pm)

## WRITERS OF THE WEEK

This week's Writers of the Week are **Max L** in Foundation, **Ryan C** in Year 1, **Ozzie J** in Year 2, **Alfie C** in Year 3, **Rhys H** in Year 4, **Eliza-Petal A** in Year 5 and **Eva B** in Year 6.

**Our final day of the term is Friday 27 May and we return to school on Monday 6 June.**

## CLASS UPDATES

For week commencing 23<sup>rd</sup> May 2022

Please find information about what each class are learning next week.

## FOUNDATION STAGE

Next week the children will be learning all about the Queen and her Platinum Jubilee. This will provide lots of opportunities for creative activities such as painting a plate to keep as a memory, making bunting, designing crowns and contributing to a whole school collage. They will learn about the past and present by looking at photos and videos of the Royal family. On Thursday we are looking forward to taking part in a whole school celebration and children have started to learn a song to sing during it. In maths, the children will recap 2D shapes and practise writing their numbers correctly. In phonics, they will recap Set 2 sounds and practice their red words. The children will be finishing their bean diaries and bringing their broad bean home, if they haven't already.

## **YEAR 1**

Unbelievably we are entering our last week of term! This week we will be learning about Queen Elizabeth II and her 70 years as Queen of the United Kingdom. We will be taking part in lots of fun activities and designing our own bunting and flags for the celebrations. We will also be completing our own Fairy Tale stories in English and thinking about position and direction in Maths. In DT we will be making fruit salads!

## **YEAR 2**

Well done Year 2 for all of your hard work this week. Next week is another busy and exciting week! In English we will be completing our own chapters linked to *The Owl Who Was Afraid of the Dark*. In maths, we will be continuing our work on measures by reading scales and learning how to measure liquids and the temperature. We will also be completing our maths SAT papers so if possible practise your number facts over the weekend so that you are confident. We will also be preparing for our Jubilee celebrations with lots of fun activities as well as learning a song from the 90s to share with the rest of the school.

## **YEAR 3**

We are looking forward to our Jubilee celebrations next week together! In art, we compose a scene using a variety of Keith Haring inspired sculptures linked to our Egypt topic. We continue to compile a report based on a newly-discovered tomb from the Valley of the Kings in English. In maths, we move to fractions, revisiting our Year 2 work before delving deeper. In science, we begin our new topic on light and again, link this to our Ancient Egypt topic. In PE, we continue with athletics and focus on our listening to each other and working together in our Outdoor Adventurous Activity (OAA). This has been an area of invaluable experience for the class. Just another busy week in Year 3!

## **YEAR 4**

This week in Year 4, we shall be rounding off the term with some story writing based on our studies of stories from other cultures. We will also be looking at problem solving with money in maths. As part of the Queen's jubilee celebrations, we will be getting crafty and making decorations for our picnic at the end of the week. In science, we will be summarising our learning on living things and as part of our human geography we will be doing an environmental study of the local area. In addition to all of this, we will be completing our final performance of 'Blackbird' in music sessions.

## **YEAR 5**

In maths, we complete our fractions unit and multiply a mixed number by a whole number. We then progress to finding unit and non-unit fractions of amounts, quantities and measures. In English, we shall continue to write our explanation texts about the chocolate making process, ensuring we include key features and a range of conjunctions. In geography, we use the eight compass points to describe routes on a world map. In RE, we learn more about Martin Luther King, who dedicated his lives to helping others in order to show his commitment / love to God.

On Thursday, we enjoy our Jubilee celebration day and picnic on the field in the afternoon. Finally, PE is on Monday (tennis) and Tuesday (rounders).

## **YEAR 6**

This week we will begin to write a short story. This will see the application of all the skills we've learnt, as we move through the adventure, choosing and taking different doors which lead us on our journey. In maths we will be problem solving. In science we carry out investigations to find how to change cells and

components in a circuit to achieve a specific effect and devise ways to measure the brightness of a bulb, speed of a motor or volume of a buzzer. In P.E. we will develop throwing for distance with force and accuracy. We will explore 'Music and Me' in music and continue to debate how thoughts, feelings and actions impact on our relationships.
