

**Article 29 (Peace and respect) Your education should help you to... learn to live peacefully, protect the environment and respect other people.**

These additional procedures regarding behaviour and expectations have been added to our behaviour management policy due to the Coronavirus Pandemic.

New routines and procedures will be in place as children return to school. Children are all expected to follow these new routines as a matter of care to the whole school community.

Explicit teaching with children regarding these changes will be put in place as the children return to school, and teachers will remind children daily of these expectations.

Positive reinforcement will be used to help children understand the expectations, and compliance will be rewarded as appropriate. We will expect all children to follow procedures and routines identified in mitigating risk in our robust return to school plan.

Such actions include:

- Regular handwashing – on entry to school; every transition between their classroom and another area of the school; every visit to the toilet; before and after using certain resources.
- Only mixing with children from their 'bubble'
- Not wilfully touching, or physically interacting, with other children or staff
- Social distancing from adults and children wherever possible
- Follow the 'catch it, bin it, kill it' policy with coughs and sneezes and binning tissues in a lidded bin
- Only one child at a time using the toilets
- Telling staff if they feel unwell immediately
- Only playing and working in designated areas inside and outside allocated to the 'bubble'
- Asking if they wish to leave the classroom for ANY reason.

Should there be a situation where a child is purposefully disregarding these additional procedures, or find it impossible to abide by them, the following escalation will be put in place:

- Child discussing procedures and dangers of not following guidelines to keep everyone safe with the class teacher
- Child discussing procedures and dangers of not following guidelines to keep everyone safe with Headteacher
- Headteacher discussing situation with parents
- Parents complete work at home to further consolidate child's understanding of the systems
- Child given final chance to return to school
- In the event that the child shows any further disregard toward systems, Headteacher asks child and parents to return to home-learning due to health and safety reasons.
